INDEX

Alveolar ridge and palate in man, development of, Odontological Essays, I, L. Bolk, M.D., 138
Animals, exact distribution of the gastric glands in man and, Y. Miyagawa, M.D., 56
Arteries, basal, of the forebrain and their functional significance, Joseph L. Shellshear, 27
Auriculo-ventricular bundle in mammals, A. Hillyard Holmes, M.D., M.R.C.P., 269

Bifurcate clavicle, Henry Rutherfurd, M.B., C.M., 286
Bizarro, A. H., F.R.C.S. (Eng.), on sesamoid and supernumerary bones of the limbs, 256
Bland-Sutton, Sir John, Selected lectures and Essays (including ligaments, their nature and morphology), 4th ed., 1920, Review, 78
Bolk, L., M.D., Odontological Essays, 138, 219
Bones, fusion-lines of, Zachary Cope, 36
— of the limbs, sesamoid and supernumerary, A. H. Bizarro, F.R.C.S. (Eng.), 256

Cerebral hemisphere in man, embryonic, Marion Hines, Ph.D., 292
Chick, eye of, development of the fissural and associated regions of, with some observations on the mammal, I. C. Mann, M.B., B.S., 113
Clark, W. E. Le Gros, F.R.C.S. (Eng.), on the Pacchionian bodies, 40
Clavicle, bifurcate, Henry Rutherfurd, M.B., C.M., 286
Coelomate animals, significance and meaning of segmentation in, W. B. Primrose, M.B., Ch.B., 119
Cope, Zachary, fusion-lines of bones, 36
Corpus striatum, contribution to the morphology of, Raymond A. Dart, 1
Cranium, primordial, of *Tatusia novemcincta*, as determined by sections and models of the embryos of 12 millimetre and 17 millimetre C.R. length, Prof. Fawcett, M.D. (Edin.), 187

Dart, Raymond A., a contribution to the morphology of the Corpus striatum, 1
Dixon, Prof. A. Francis, note on the vertebral epiphyseal discs, 38

Enamel-germ, development of, Odontological Essays, II, L. Bolk, M.D., 152
Endoskeleton, vertebrate, evolution of, W. B. Primrose, M.B., Ch.B., 119
Epiphyseal discs, vertebral, note on, Prof. A. Francis Dixon, 38
Eye of Chick, development of the fissural and associated regions of, with some observations on the mammal, I. C. Mann, M.B., B.S., 113

Fawcett, Prof., M.D. (Edin.), the primordial cranium of *Tatusia novemcincta* as determined by sections and models of the embryos of 12 millimetre and 17 millimetre C.R. length, 187
Forebrain, basal arteries of, and their functional significance, Joseph L. Shellshear, 27
Fusion-lines of bones, Zachary Cope, 36

Gastric glands in man and in certain animals, exact distribution of, Y. Miyagawa, M.D., 56

Hedgehog, lachrymal gland of, note on, E. W. Hurst, B.Sc., 49
Hines, Marion, Ph.D., the superior olive in Ornithorhynchus, 290
— The embryonic cerebral hemisphere in man, 292
Holland, Chas. Thurstan, on rarer ossifications seen during X-ray examinations, 235
Holmes, A. Hillyard, M.D., M.R.C.P., the auriculo-ventricular bundle in mammals, 269
Hurst, E. W., B.Sc., note on the lachrymal gland of the hedgehog, 49

Intestinal tract, abnormal disposition of, N. Pan, 288

Jones, Frederic Wood, D.Sc., M.B., the principles of anatomy as seen in the hand, 1920, Review, 78

Lachrymal gland of the hedgehog, note on, E. W. Hurst, B.Sc., 49
Limb, upper, distribution of nerves in, with reference to variabilities and their clinical significance, Eric A. Linell, M.D. (Manch.), 79
Limbs, sesamoid and supernumerary bones of, A. H. Bizarro, F.R.C.S. (Eng.), 256
Linell, Eric A., M.D. (Manch.), the distribution of nerves in the upper limb, with reference to variabilities and their clinical significance, 79
Localisation, tactile, John S. B. Stopford, M.D., 249

Mammals, auriculo-ventricular bundle in, A. Hillyard Holmes, M.D., M.R.C.P., 269
— development of the fissural and associated regions in the eye of the chick, with some observations on the mammal, I. C. Mann, M.B., B.S., 113
— tooth-glands in reptiles and their rudiments in, Odontological Essays, III, L. Bolk, M.D., 219
Man, embryonic cerebral hemisphere in, Marion Hines, Ph.D., 292
— gastric glands in, and certain animals, exact distribution of, Y. Miyagawa, M.D., 56

Man, palate and alveolar ridge in, development of, Odontological Essays, I, L. Bolk, M.D., 138
Mann, I. C., M.B., B.S., on the development of the fissural and associated regions in the eye of the chick, with some observations on the mammal, 113
Microtus amphibius, water vole, parthenogenesis in, G. S. Sansom, B.Sc., 68
Miyagawa, Y., M.D., the exact distribution of the gastric glands in man and in certain animals, 56

Nerves in the upper limb, distribution of, with reference to variabilities and their clinical significance, Eric A. Linell, M.D. (Manch.), 79

Odontological Essays, L. Bolk, M.D., 138, 219
Olive, superior, in Ornithorhynchus, Marion Hines, Ph.D., 290
Ornithorhynchus, superior olive in, Marion Hines, Ph.D., 290
Orrin, H. C., O.B.E., F.R.C.S. (Edin.), the X-ray atlas of the systemic arteries of the body, 1920, Review, 78
Ossifications, rare, seen during X-ray examinations, Chas. Thurstan Holland, 235

Pacchionian bodies, W. E. Le Gros Clark, F.R.C.S. (Eng.), 40
Palate and alveolar ridge in man, development of, Odontological Essays, I, L. Bolk, M.D., 138
Pan, N., abnormal disposition of the intestinal tract, 288
Parthenogenesis in the water vole, *Microtus amphibius*, G. S. Sansom, B.Sc., 68
Primrose, W. B., M.B., Ch.B., the evolution of the vertebrate endoskeleton, an essay on the significance and meaning of segmentation in Coelomate animals, 119

Reptiles, tooth-glands in, and their rudiments in mammals, Odontological Essays, III, L. Bolk, M.D., 219
Reviews, selected lectures and essays (including ligaments, their nature and morphology). By Sir John Bland-Sutton, 4th ed., 1920, 78
— The principles of anatomy as seen in the hand. By Frederic Wood Jones, D.Sc., M.B., 1920, Review, 78
— The X-ray atlas of the systemic arteries of the body. By H. C. Orrin, O.B.E., F.R.C.S. (Edin.), 1920, Review, 78
Rutherfurd, Henry, M.B., C.M., bifurcate clavicle, 286

Sansom, G. S., B.Sc., parthenogenesis in the water vole, *Microtus amphibius*, 68
Sesamoid and supernumerary bones of the limbs, A. H. Bizarro, F.R.C.S. (Eng.), 256
Shellshear, Joseph L., the basal arteries of the forebrain and their functional significance, 27
Stopford, John S. B., M.D., tactile localisation, 249

Tactile localisation, John S. B. Stopford, M.D., 249
Tatusia novemcincta, primordial cranium of, as determined by sections and models of the embryos of 12 millimetre and 17 millimetre C.R. length, Prof. Fawcett, M.D. (Edin.), 187
Tooth-glands in reptiles and their rudiments in mammals, Odontological Essays, III, L. Bolk, M.D., 219

Vertebral epiphyseal discs, note on, Prof. A. Francis Dixon, 38
Vertebrate endoskeleton, evolution of, W. B. Primrose, M.B., Ch.B., 119
Vole, water, *Microtus amphibius*, parthenogenesis in, G. S. Sansom, B.Sc., 68

X-ray examinations, rarer ossifications seen during, Chas. Thurstan Holland, 235

CAMBRIDGE: PRINTED BY J. B. PEACE, M.A., AT THE UNIVERSITY PRESS
